To Whom It May Concern,

I am writing on behalf of **The Botswana-University of Pennsylvania Partnership** to express our full support for the upcoming **Botswana Health Expo 2026**, scheduled for **22-24 April 2026** at **G.I.C.C**, organized by a locally registered Botswana healthcare distribution company Solitic (Pty) Ltd. This event represents an important opportunity for our community to gain access to essential health resources, education, and preventative care services that promote long-term wellness.

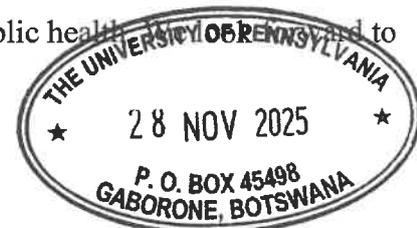

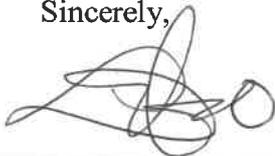

The Health Expo's focus on "**public health, chronic disease prevention, mental health awareness, community health screenings, nutrition, fitness, etc.**" aligns strongly with our mission to, Improve Health in Botswana and Beyond through the Power of Partnership. Since 2001, the Botswana - University of Pennsylvania Partnership (BUP) has been supporting the training and mentoring of talented and driven clinicians, public health experts, educators, and investigators from Botswana. To pursue its mission, in association with the University of Botswana (UB) and the Botswana Ministry of Health and Wellness (MOHW), BUP has leveraged the resources and expertise available at the Perelman School of Medicine (PSOM), the Children's Hospital of Philadelphia (CHOP), and other institutions affiliated with the University of Pennsylvania (Penn). By bringing together healthcare professionals, organizations, and community members, the expo fosters collaboration and empowers individuals to take charge of their health.

We commend the organizers for their commitment to improving community well-being through accessible, culturally informed, and engaging health programming. Events like this play a vital role in addressing health disparities, increasing awareness, and building a healthier future for all residents.

BUP is proud to support this initiative and stands ready to assist in any way that may further its success. We are confident that the **Botswana Health Expo 2026** will make a meaningful impact and serve as a model for community-based health engagement.

Thank you for your dedication and leadership in advancing public health, and to seeing the positive outcomes this event will bring.

Sincerely,
